Asia's premier pharmaceutical event

CPHI & PMEC China continues with its online event, Virtual Expo Connect, adding valued services and infinite opportunities for both domestic and international clients to connect, learn, trade and grow.

It has been an unusual couple of years for everyone in every industry – including pharma.

CPHI & PMEC China adapted to the realities while still offering a platform to meet, connect, and drive business forward.

We achieved this in part by developing and enhancing our online solutions and taking the in-person events over to our online space with the introduction of our online event platform, Virtual Expo Connect.

Take a look at the event highlights:

Hosted Buyer Programme continued

90%

Int'l buyers are satisfied with the suppliers that precisely matched

95%

Int'l buyers have continued the business relationship after the video meeting

Hear what buyers said:

"I think it's a good event to meet different suppliers at the same time and get a chance to face to face negotiation."

BPC

"It was a really valuable opportunity to have an online video conference with many potential partners towards future. Thanks again for your nice arrangement."

K.K. Jupiter bioscience

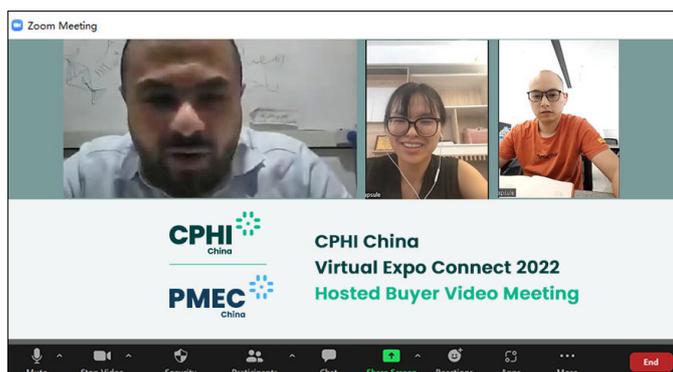

"Good experience! We will surely consider to join the event again with our purchasing requests in future."

CROM S.P.A.

"Thank you! As we are planning to expend our partner in China, we really appreciate this arrangement."

A&LS PHARMA CORP.

Matchmaking service

We asked attendees and exhibitors who used our matchmakings service the following post show questions and here are the results of that survey:

What is the likelihood that you will partner with the matched buyer(s) in the next six months?

7/10

average result

What is the likelihood you will keep in contact with the matched buyer(s) within the next six months following the first meeting?

8.5/10

average result

We are pleased to announce that we will host the in-person event for CPHI and PMEC China in Shanghai from 20-22 December 2022.

For international clients who are not able to attend physically, we will still offer digital alternative – Virtual Expo Connect – for the pharma industry to connect, learn.

CPHI & PMEC China is organised in a comfortable, compliant, safe, and accessible way with our AllSecure standards. If you're unable to join us in China (we hope you can!) we have plenty of opportunities for you to join us online and still benefit from ample learning and networking opportunities.

“Very helpful event to find a partner, thank you CPHI China team (Ellie) for helping with the partner search! It was really useful!”
 Chief BD Manager, Geropharm

“Great help to meet new suppliers, would be glad to meet more accurate to the demand of the buyer.”
 Managing Director, Fast Pharma Private Ltd.

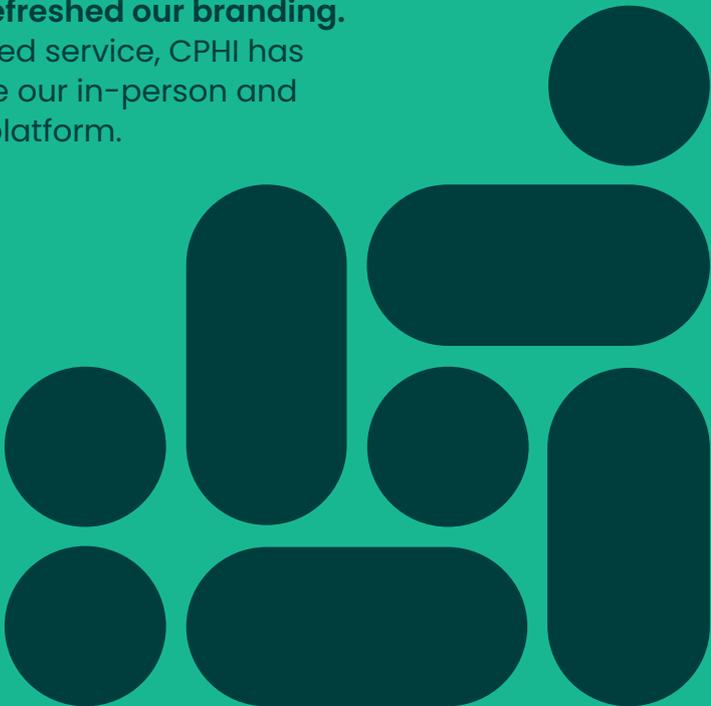

New look!

You may have noticed that since hosting the last edition of Virtual Expo Connect, we have refreshed our branding. To give you a clearer more integrated service, CPHI has evolved the brand structure to unite our in-person and online events into one continuous platform.

Hosting large pharma in-person events that empower you to connect with suppliers and source new products, is still at the core of our business. Only now, you'll be able to carry on these conversations and develop opportunities online long after the floor show has ended. The new branding can be experienced on our website and in-person events.
