

Shortlist 2022

About the CPHI Pharma Awards

Since its inception in 2004, the CPHI Pharma Awards has celebrated cross-industry innovators making a contribution to driving the industry forward, though people, products and performance.

The Awards welcomes entries from pharmaceutical and biopharmaceutical companies across the globe, engaged in the design, development, manufacture, production and distribution of both large and small molecule drug products.

This year, over **181 entries** were received across the 10 categories which span all aspects of the industry, from API Development, Manufacturing Technology & Equipment and Digital Innovation to the prestigious CEO of the Year Award. All entries are reviewed in extensive detail by our panel of 17 Jury Members, who collectively bring decades of expertise from big pharma, consultancy, regulatory, market intelligence and academia.

Each entry receives a score from the Jury on specific criteria, which include; innovation, outcomes, features and purpose, problem-solving and competitive advantage. Top scoring entries in each category are shortlisted, and in the running to take home the trophy!

Announcing the 2022 CPHI Pharma Awards Shortlist

Innovation in Response to Covid-19

CRITERIA:

- **Innovation:** How does the entry demonstrate innovation and resourcefulness in response to the pandemic?
- **Purpose and Outcomes:** Does it achieve its purpose? Does it offer benefits to the audience it was designed for?
- **Problem-solving:** How does it address the impact of COVID-19? Does it do so in an effective way?
- **Competitive Advantage:** How does the entry demonstrate going above and beyond or a collaborative approach in a time of crisis?

Shortlisted Entries:

Ami Lifesciences Pvt. Ltd.

Molnupiravir

Croda

Scale up and supply of Lipid nanoparticle components for Covid-19 vaccination

Evonik

Lipid production in record time:
How Evonik supplied specialty lipids to
BioNTech in weeks

Gilead Sciences, Inc.

Veklury®

Moderna

SPIKEVAX™

Oliba - Viatris

The NCD partnership

API Development

Innovation in technologies, products, processes, and services for the development and manufacture of active pharmaceutical ingredients (APIs) including, but not limited to, synthesis, characterization, formulation, scale-up, software and database development, bulk manufacturing.

CRITERIA:

- **Innovation:** Does the entry introduce a new idea, device, method or Formulation novelty to the market?
- **Purpose:** Does it achieve its purpose? Does it offer benefits to the audience it was designed for?
- **Problem-solving:** Does it solve a problem? Does it address an issue in an effective way?
- **Competitive Advantage:** Does it offer a competitive advantage in the market and within its category?

Shortlisted Entries:

Cambrex Corporation

Continuous Flow Oxidation Process

Chemical Resources

Thiocolchicoside

CrystecPharma

mSAS®

Indicatrix

Crystallography Ltd

EnaCt

Shilpa Biologicals Pvt Ltd

Recombinant Human Albumin

Tokuyama Corporation

Novel Synthesis of SGLT2 Inhibitors

Finished Formulation

Entries for this award should relate to launches from the past 18 months (timeline in place for commercialisation). Innovation in technologies, products, processes, and services related to the formulation of drug products including, but not limited to, excipients, finished dose, OTC, novel software and databases, process development, resolving formulation challenges such as solubility/ bioavailability enhancement, drug targeting or controlled release, solving stability issues such as protein aggregation, etc.

CRITERIA:

- **Innovation:** Does the entry introduce a new idea, device, method, or novelty to the market?
- **Purpose:** Does it achieve its purpose? Does it offer benefits to the audience it was designed for?
- **Problem-solving:** Does it solve a problem? Does it address an issue in an effective way?
- **Competitive Advantage:** Does it offer a competitive advantage in the market and within its category?

Shortlisted Entries:

Accord Healthcare

Sixmo®

Albireo Pharma, Inc

Bylvay®

Aprecia

ZipCup Formulation Platform

Catalent Pharma Solutions

Catalent Xpress Pharmaceuticals™

CrystecPharma

In-particle design®

Dr. Ferrer BioPharma

ClorNasal

GATTEFOSSÉ

Emulfree® Duo

Manufacturing, Technology & Equipment

Innovation in technologies, products, processes, and services for the manufacture of solid, semi-solid, parenteral, inhalation, or other dosage drugs including, but not limited to, equipment, manufacturing processes, facilities, process controls, and continuous manufacturing.

CRITERIA:

- **Innovation:** Does the entry introduce a new idea, device, method, or novelty to the market?
- **Features:** Does the product have interesting or important part(s), qualities, abilities, improved attributes?
- **Problem-solving:** Does it solve a problem? Does it address an issue in an effective way?
- **Competitive Advantage:** Does it offer a competitive advantage in the market and within its category?

Shortlisted Entries:

Azbil Telstar

Smart Format

Enzymaster Deutschland GmbH

Biocatalytic Neat Organic Process to
Produce Enantiopure Amines

Gasporox AB

VialArch

Just-Evotec Biologics

J.POD®

SHL Medical

Modular Fully Automated
Testing Machine Platform

Thermo Fisher Scientific

Gibco™ Efficient-Pro™ Media
and Feeds Systems

Lonza Small Molecules

Temperature-Shift Spray Drying Process

Packaging & Drug Delivery

Innovation in technologies, products, solutions, processes, and services related to primary, tertiary and secondary packaging of finished drug forms, routes of administration and drug delivery devices including, but not limited to, inhalers, auto-injectors, vials, syringes, patches, combination products, tamper-proof packaging, child-safety packaging, labelling, intelligent packaging, and fill-finish.

CRITERIA:

- **Innovation:** Does the entry introduce a new idea, device, method or novelty to the market?
- **Features & Purpose:** Does the product have interesting or important part(s), qualities, abilities, improved attributes? Does it achieve what it was intended to achieve? Does it offer benefits to the audience it was designed for?
- **Problem-solving:** Does it solve a problem? Does it address an issue in an effective way?
- **Competitive Advantage:** Does it offer a competitive advantage in the market and within its category?

Shortlisted Entries:

Evonik

Beyond: LNPs: Polymeric nucleic acid delivery
from Evonik & Stanford University

Haemopharm Healthcare

FillChoice® Lung – CSTD

Nemera & Noble International

Safe 'n' Sound® Patient Onboarding Kit

Phillips-Medisize, a Molex Company

Smart Autoinjector Aria

SHL Medical

Maggie 5.0 mL

Sio2

BBW-packaging

Digital Innovation

Innovation in digital technologies, products, processes, initiatives, and services which drive value in pharmaceutical development and improve patient outcomes. Including but not limited to advanced and predictive analytics, Artificial Intelligence, automation, patient-centric solutions for improved experience and adherence, track and trace, remote monitoring, medical devices, and wearables.

CRITERIA:

- **Innovation:** Does the entry introduce a new idea, device, method, process, or service to the market?
- **Purpose:** Does it achieve what it was intended to achieve? Does it offer benefits to the audience it was designed for?
- **Problem-solving:** Does it solve a problem? Does it address an issue in an effective way?
- **Competitive Advantage:** Does it offer a competitive advantage in the market and within its category?

Shortlisted Entries:

A Life in a Day

A Life in a Day – Heart failure experience

Accord Healthcare

Unify Health: Helping cancer patients throughout their cancer journey

Aptar Pharma

Oleena® Digital Therapeutic for Symptom Management in Oncology

ATMPS Ltd

Haatali – interoperable platform for vein-to-vein tracking of advanced therapies globally

Colorcon Inc.

SoteriaRx on-dose

Nanoform

STARMAP® Online

Pharmaoffer.com

Pharmaoffer.com Platform

Supply Chain, Logistics & Distribution

Innovation in technologies, products, processes, and services for ensuring the safe handling and tracking of drug substances, raw materials, and finished drug products including, but not limited to, supply chain, audits, temperature-controlled logistics, transport services, track and trace, shipping containers, and distribution channels.

CRITERIA:

- **Innovation:** Does the entry introduce a new idea, device, method, or service to the market?
- **Purpose:** Does it achieve what it was intended to achieve? Does it offer benefits to the audience it was designed for?
- **Problem-solving:** Does it solve a problem? Does it address an issue in an effective way?
- **Competitive Advantage:** Does it offer a competitive advantage in the market and within its category?

Shortlisted Entries:

Aragen Life Sciences

eCule LogiTracker

Bushu Pharmaceuticals Ltd.

GATEWAY to ASIA service

Cipla

Cipla Global Supply Chain Excellence in Supply Chain, Logistics and Distribution

CRYOPDP

Healthcare temperature-controlled logistics solutions

HCL Technologies

Consignment Inventory Management powered by IATM

LC CONSULTING SAS

Managing bis(trichloromethyl)carbonate-triphosgene pharma grade supply chain by chemistry knowledge

Sustainability

This award recognizes sustainable development in the Pharmaceutical industry and innovative initiatives for improving outcomes for patients, employees, the environment, and wider community. Including but not limited to, initiatives to minimize environmental impact, waste reduction, energy & utility saving solutions, sustainable and collaborative product development, innovative and sustainable use of resources, social outreach, employee training and mentoring programs, fair employee working policies, diversity and inclusion initiatives.

CRITERIA:

- **Implementation:** Does the process of implementing the initiative include all the activities that need to be done to effectuate actual change?
- **Achievements:** Has the entry/project performed with positive outcomes and high success rates?
- **Positive Outcomes to Stakeholders:** Did the entry/project provide good results to whoever was involved in or affected by a course of action of the respective company?
- **Future:** Does the entry/project provide an opportunity for continuity or expansion?

Shortlisted Entries:

Aquarray GmbH

DMA, droplet microarray

Indaver nv

Inda-MP: Recovery of precious metals from liquid waste streams

Körber Pharma Packaging Materials AG

Sustainable packaging solutions

Martin Dow Limited

CSR Activities of Martin Dow Group

Finzelberg

Going Zero

Regulatory Procedures & Compliance

Innovation in technologies, products, processes, and services designed to aid and ensure that bio/pharma companies comply with standards, rules, and guidance documents established by regulatory authorities including, but not limited to, consulting services, development of consortia and industry groups, reference standards, educational programs, and software and IT, technologies, and equipment.

CRITERIA:

- **Innovation:** Does the entry introduce a new idea, device, method, or service to the market?
- **Process Excellence:** Does the product or service offer an improved process, leading to better outcomes and results?
- **Problem-solving:** Does it solve a problem? Does it address an issue in an effective way?
- **Competitive Advantage:** Does it offer a competitive advantage in the market and within its category?

Shortlisted Entries:

Eidolon Learning Pvt Ltd

SEEK

FIVE Validation

GO!FIVE

Lonza Capsules & Health Ingredients

Capsugel® titanium dioxide (TiO₂)
free white gelatin capsule

Sandoz

Expansion of clinical use of Hydroxyurea (HU) FCT, the Sandoz developed innovative pediatric-friendly formulation for Sickle Cell Disease patients.

CEO of the Year

C-Suite Executives of SME, Large Pharma/Biopharma or service providers are eligible for nomination. Attributes to be considered include, but are not limited to, financial performance, product performance, global reach, leadership skills, management capability, charitable initiatives, sustainability, regulatory compliance, profitability, vision, marketing, acquisitions, corporate strategy, and financing.

CRITERIA:

- **Dynamism:** Is the nominee an exemplary leader with a strong desire to achieve – are they compelling, powerful, progressive?
- **Lifetime Achievements:** Has the CEO achieved or accomplished sustained growth, driven improved performance, implemented robust strategies, engaged staff and customers in their current role or throughout the course of their career?
- **Leadership Qualities:** Has the CEO consistent personal strengths and attributes that makes he or she an extraordinary leader?
- **Contribution to the Wider Industry:** Is the CEO committed to the development of the pharma industry – be in the form of donating goods, funding, time, market insights business intelligence, new lines of business?

Shortlisted Entries:

Anil Okay

Adalvo

Manni Kantipudi

Aragen Life Sciences

Hyoung-ki Kim

Celltrion Healthcare

Prashant Nagre

Fermenta Biotech Limited

Peter DeYoung

CEO Piramal Global Pharma
Piramal Pharma Solutions

Enrico Zodio

Procos SPA

Who takes home the trophies?

The winners of the 2022 CPHI Pharma Awards will be announced at an invite-only drinks and networking reception at the Messe Frankfurt Congress Centre on 1 November, the first day of the CPHI Frankfurt exhibition.

The event will bring together a 500 strong guest list of VIPs, nominees and senior stakeholders to toast the achievements of this year's winners.
