MD's Message

On behalf of Informa Markets in India, I am delighted to welcome you to the grand 15th edition of the CPhi & P-MEC India expo, the largest and most comprehensive pharmaceutical industry event in South Asia. The three-day show is taking place between November 29 to December 1, 2022 at the India Expo Mart, Greater Noida, Delhi-NCR. The expo is a part of the India Pharma Week, a marquee celebration catering to every need of the pharma community attendees and will be showcasing 5000+ products across 100,000+ sq m of exhibition space.

The Indian Pharma Market is rising at an annual growth rate of 15%, which is twice the world market growth rate. To further accelerate the growth of this industry, the government has approved incentives to the tune of almost INR 22,000 crores and 100% FDI, under the automatic route for greenfield pharmaceuticals.

Over the last 15 years, the CPhI & P-MEC India expo has demonstrated excellence in supporting the industry and growing along with it by curating highly effective platforms for showcasing technology solutions, knowledge sharing, networking, and advocacy in the past and will continue to act as a catalyst to 'Make in India 'movement and provide an impetus to Indian economy. It has been approved and comprehensively assisted in its endeavours by industry thought leaders, Pharma giants and governing bodies such as ***Pharmexcil, CIPI, IDMA, OPPI, IPA, FOPE and KDPMA.*** *This year's edition is witnessing participation from over 1500 exhibitors who have footprints both domestically and across the globe, and includes a Special pavilion by* ***the Pharmaceuticals Export Promotion Council of India (Pharmexcil).***

Alongside the display of the latest technologies, of CPhI & P-MEC India, The India Pharma Week of which the expo is a prominent part, will further provide and encourage the halo around the pharma sector. The marquee show started with the ***Pre-connect Congress*** *and will further include the* ***9th Annual India Pharma Awards, CEO Roundtable*** *and* ***Women in Pharma Roundtable****.*

As the pharma industry looks increasingly towards India for high-quality, low-cost pharma solutions, every edition of CPhI and P-MEC India has set a successful milestone for its esteemed visitors and this year too, we will raise the bar to give a significant boost to this industry.

Wishing all the exhibitors and visitors at CPhI & P-MEC India 2022, an unparalleled experience and a successful show!

Best wishes,

Yogesh Mudras
Managing Director

Dr. Appaji PV, Ex Director General,
Pharmexcil

Wednesday, 30 November 2022

TIME	PRESENTATION AND SPEAKER(S)

01:00 pm - 01:45 pm

Sustainability & Indian Pharma : 360 Degree Focus

Sustainability has emerged as a pervasive priority across the pharmaceutical value chain. Indian industry is no exception and the quest for sustainability is being pursued by corporate leaders across functions.

Within the upstream realm, industry is pursuing cleaner approaches for API production including examples such as emzymatic bio-transformation in API. Effluent and waste is a focus across the API and pharma value chain and continues to provide significant opportunity for sustainability led initiatives. Manufacturing operations power efforts in the middle. Energy efficiency and overall focus on carbon footprint is driving significant change across operational footprint. Finally, transformation in packaging and supply chain is the last straw. Several initiatives have already been implemented in packaging across both domestic market products as well as exports. Supply chain and cold chain innovation is also true across product and market segments.

The panel will converge diverse perspective across leaders in Indian pharma to spotlight the breadth of sustainability led initiatives in Indian pharma and ideate way forward for transformative impact.

Pushpa Vijayaraghavan, Director,
Sathguru Management Consultants

Appasaheb Kabadagi, Head Site Operations,
Alembic Pharmaceuticals Limited

Udit Mangal, Vice President Of Business Development,
Pluss Technologies Pvt Ltd

Wednesday, 30 November 2022

WINDLAS BIOTECH LTD

EU-GMP & SAHPRA APPROVED FACILITY

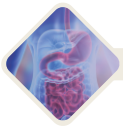
- Established in Year 2001.
- Windlas Biotech is a global pharmaceutical manufacturer having 4 times USFDA approved and EUGMP approved facilities.
- Manufacture finished dosage formulations – Tablets & Chewable Tablets, Capsules & Liquid Filled Capsules, Syrups & Suspensions, Powders ,Diskettes ,Sachets

ACCREDIATIONS

DEVELOPED API

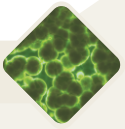
Mirabegron, Zofenopril Calcium , Fimasartan, Apremilast, Bepotastine Besilate, Nefopam, Rivaroxaban, Azelnidipine, Vortioxetine

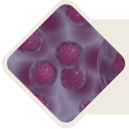
INNOVATIVE TECHNOLOGIES



Gastro Retentive Floating Drug Delivery System

Bilayer to Single Layer Platform Technology – Smallest tablet of Glimepiride + metformin





Global Patented Chewable Iron Tablet
- No gastro-intestinal side effects
- High stability & No metallic taste

SERVICES

- Contract Manufacturing.
- Contract Research and Manufacturing Services(CRAMS) for API & FDF.
- Medico – Regulatory support to file 1st to launch products with CT in India.
- In – Licensing for India market.

Embellish®

Embellish®
Pharamatech Pvt. Ltd.

Empress® SR is the product designed for Sustained Released Formulation or the drug delivery designed for modified released, this material is Carbomer based Acrylic polymer where Empress SR is incorporated with the API and form a matrix where the release of the drug is controlled.

Empress® U is basically blend of some super disintigerent and pH stabilizers this will work as Disintigerent and Dissolution improver in the molecule for which the dissolution is in phosphate buffer, and further more in case of PPI molecules where pH fluctuation is a biggest issue and due to which the colour of tablet changes and assay of drug is downgraded so in those molecules Empress U is better option to hold the pH of those combination till their shelf life

Empress® 80 is the powdered form of polysorbate 80 (Tween 80) , here Polysorbate 80 has been Adsorbed in certain Adsorbant to prepare a stable and white powder to incorporate directly in Tablet and capsule formulation.

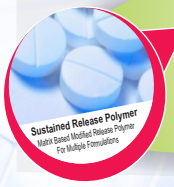
Empress® FA is basically Blend of Certain antioxidants and it is very effective to prevent bulging of strips in certain formulation like amoxy clav, amoxy dicloxa, ferrous ascorbate and all potassium clavulenate formulation.

Empress® H is basically adsorbent and can be used for hygroscopic drugs , it works effectively on Sodium Valproate, L-carnitine, Divalproex Sodium and all other drugs which are hygroscopic and creates problem during compression and afterwards,

Empress®CP is designed for Cefuroxime Axitil and Cefpodoxime Proxitil as in both cases dissolution is major issue our Empress CP is designed to overcome dissolution problem in both cases , Empress CP is a blend of disintigerents and solublisers which helps the drug to get solublized in the media and to achieve proper dissolution result

Empress® F is the blend of certain solubliser and disintigerent specially designed for Fexofenadine 120 mg and 180 mg to overcome the dissolution issues . The dissolution in Fexofenadine is common issue now a days Empress F is the proper solution

Empress®CF is the blend of certain solubliser and disintigerent specially designed for Ciprofloxacin HCl 250 mg and 500 mg to overcome the dissolution issues .The dissolution in Ciprofloxacin HCl is common issue .Empress CF is the proper solution



Empress® HSR is SR blend of HPMC and Carbomer and it is used in certain formulation of Sustained released tabs like Sodium Valproate SR , Divalproex Sod Cr, in all strength it has property to form the matrix and release drug periodically as per desired profile to prepare consistent SR formulation throughout

Empress®G is basically a blend of super disintigerent and some solublisers designed for the Dissolution enhancement of Glimepiride in all the strengths, it is drug specific product and it has been designed to overcome dissolution issues in glimepiride

SAINOR LABORATORIES PVT LTD

THE ONLY INDIAN COMPANY MAKING n-BUTYL LITHIUM

MANUFACTURING FACILITY WITH R & D, PILOT PLANT, DEDICATED AND MULTI PRODUCT BLOCK

EXPERTISE IN CRYOGENIC & HYDROGENATIONS

CURRENTLY COLLABORATED WITH MUTLI NATIONAL CHEMICAL MANUFACTURING COMPANIES

PIONEERS IN HANDLING LITHIATION & FORWARD REACTIONS USING ORGANOMETALLICS

UNIT I & UNIT III

Boron (B)
Boron trichloride
Boron tribromide
Borane dimethyl sulfide complex
Borane tetrahydrofuran complex solution

Sodium (Na)
Sodium bis(trimethylsily)amide solution
Sodium triacetoxyborohydride
Sodium tert-pentoxide
Sodium tert-butoxide

Potassium (K)
Potassium bis(trimethylsilyl)amide
potassium tert-pentoxide
Potassium tert-butoxide

Lithium (Li)
n-Butyllithium
Methyllithium
Lithium bis(trimethylsilyl)amide
Lithium triethylborohydride
Lithium tert-butoxide
Lithium borohydride

Magnesium (Mg)
Methylmagnesium bromide
Methylmagnesium chloride
Cyclopropylmagnesium bromide
Isopropylmagnesium chloride
4-Fluorophenylmagnesium bromide

Aluminium (Al)
Trimethylaluminium
Diisobutylaluminium hydride
Diethyluminum chloride

Zinc (Z)
Diethylzinc
Zinc borohydride
Dimethyl Zinc

LEADER IN MANUFACTURING PHARMACEUTICAL PELLETS IN MULTI THERAPEUTIC CATEGORIES

WHO GMP CERTIFIED FACILITY
LARGEST MANUFACTURER OF OMEPRAZOLE PELLETS

UNIT II

- ANTI INFLAMATORY — Diclofenac
- ANTI OBESITY — Orlistat
- MUCOLYTIC AGENT — Ambroxol
- ANTI ULCER — Omeprazole • Esomeprazole, Lansoprazole • Pantoprazole, Dexrabeprazole • Rabeprazole
- ANTI FUNGAL — Itraconazole
- ANTI EMETICS — Domperidone
- BENIGN PROSTATIC HYPERPLASIA — Tamsulosin
- PROKINETIC AGENT — Itopride, Levosulpiride
- ANTI HYPERTENSIVE — Metoprolol

PIPELINE

Jaysons API Pharma

WE, AT JAYSONS ARE CREATING RELATIONS……
With over 20 years of experience and through our global network, we offer dedicated solutions for your commercial procurement and developments needs of API's / DC Granules and excipients.

Jaysons API Pharma is the fastest growing and most trusted name in Pharmaceuticals Export since last 20 years. Being "Your Trusted Procurement Partner", Jayson's has a strong professional team handling commercial, regulatory and logistics. Our exclusive relations with the API manufacturers help us to keep our customers updated with all the market information. With over 250+ customers spread over 30 countries, we continuously keep learning and updating ourselves to provide the finest working experience to our customers.

With our in-depth market knowledge and a very strong back-end support from our Regulatory team, we assist suppliers with product planning, technical know-how, Compiling and preparation of electronic files in eCTD format in support of master files (DMF, VMF, and EDMF/ASMF) as well as CEP/COS. At the same time, in order to reciprocate the vast number of suppliers, we are also making continuous efforts to promote their products through our dedicated network worldwide.

Strong Products :

1) Albendazole
2) Allopurinol
3) Ambroxol
4) Amlodipine Besilate
5) Caffeine Anhydrous
6) Cefixime Trihydrate
7) Cefpodoxime Proxetil
8) Cefuroxime Axetil
9) Deferiprone
10) Deferasirox
11) Desoximetasone
12) Dexamethasone
13) Diclofenac Sodium / Potassium
14) Dobutamine Hydrochloride
15) Erythromycin Salts
16) Fexofenadine Hydrochloride
17) Guaifenesin
18) Ibuprofen
19) Ketoconazole
20) Ketorolac Tromethamine
21) Methocarbamol
22) Mebendazole
23) Metformin Hydrochloride
24) Oxcarbazepine
25) Phenazopyridine
26) Phenytoin
27) Rifaximin
28) Sulphamethoxazole
29) Trimethoprim
30) Vitamins

Company Profile :

1) ISO Certified API Marketing Company
2) GDP Certified API marketing Company
3) Active in 30 Countries
4) More than 200 International Clients
5) Representing TOP Indian and China API manufacturers

Services Offered :

1) Sourcing of API and Excipients
2) Regulatory Services
3) Arranging consolidated shipments to Clients
4) API Development

Delivering World Class Pharmaceutical Market Expansion Services

What Drives Us

HRV, epitomes our key tenet of Rx (Latin for 'Recipe/Take' or a 'medical prescription') for all Human & Veterinary drugs.

What We Offer

We offer a comprehensive package of services along the entire Pharmaceutical Value chain from sourcing, R&D, manufacturing, marketing, sales, distribution and logistics for our partners

What We Provide

We enable business by sharing our resources in relationships, global supply chain and meet compliances in multiple geographies.

PRODUCTS

Active Pharmaceutical Ingredients
Pharmaceutical Intermediates
Pellets
Food Additives

PROPAK INDIA

AGC

AGC Group is expanding its global business in the four fields of glass, chemicals, electronics and ceramics.
The field of chemicals first began approximately 100 years ago, with the production of soda ash, a raw material of flat glass in Japan.

AGC has a unique position as a producer of pharmaceutical and agricultural fine chemicals with over thirty years' experience in fluorine chemistry.

AGC' s product range includes various fluorine compounds such as fluoroanilines, fluorobenzoic acid and fluoroquinolones, as well as advanced intermediates and bulk APIs / agricultural AIs. In response to customer demand, AGC is continuing to increase the production capacity in Japan and Spain.

Description :

BACFO, established in 1994, is a leading manufacturer and exporter of Nutraceutical supplements, Herbal medicine, and Personal Care products. In complement to domestic sales, it presently exports to 25 countries and manufactures for over 50 prominent Indian pharmaceutical firms, pharmacy chains, e-commerce businesses, and network marketing organisations.
The state-of-the-art facility, spanning across 8,100 square metres in Noida (New Delhi capital region), manufactures tablets, capsules, syrups, powders, oils, ointments, gels, and creams in dust-free aseptic conditions with controlled RH and temperature. Two new automatic protein powder lines and two soft-gelatin lines have been commissioned in November 2022.
The R&D unit is duly recognised by the Department of Scientific & Industrial Research (DSIR), Government of India. A separate pilot scale lab with R&D scale manufacturing ensures quick development, sampling and process optimization for its clientele.
BACFO is a part of the global AKC Group, whose promoters are also behind the genesis of the reputed Amity Education Group, which has diversified business interests in plastics, pharmaceuticals, education, technology transfer, turnkey projects, finance, construction, publishing, and IT. The Group, established in 1976, has over 12,000 people.

Description :

Tata Chemicals currently is the world's third largest producer of soda ash with manufacturing facilities in India, United Kingdom, Kenya and the United States. We are also the sixth largest producer of sodium bicarbonate. The Specialty Chemistry product range covers four verticals.

We operate through two verticals - Basic Chemistry and Specialty Chemistry. The company's Basic Chemistry product range provides key ingredients to many of the world's leading brands for glass, detergents, pharma, biscuit manufacturing, bakeries and other industries.

Our innovations in Specialty Chemistry have led to establishing Tata NQ -- India's first and only nutritional science business. We have pioneered the production of Fossence and Gossence,
