Top destinations:

“

CPHI & PMEC India is always exciting for networking and discovering industry trends and innovations. The response has been fantastic, with great footfall and a well-executed event. What stands out most is the opportunity to track market trends and expand our network. We'll definitely participate in 2025, as it is consistently delivering excellent results. In one word: Outstanding. Thank you!

”

India pharma market value

2024

2030

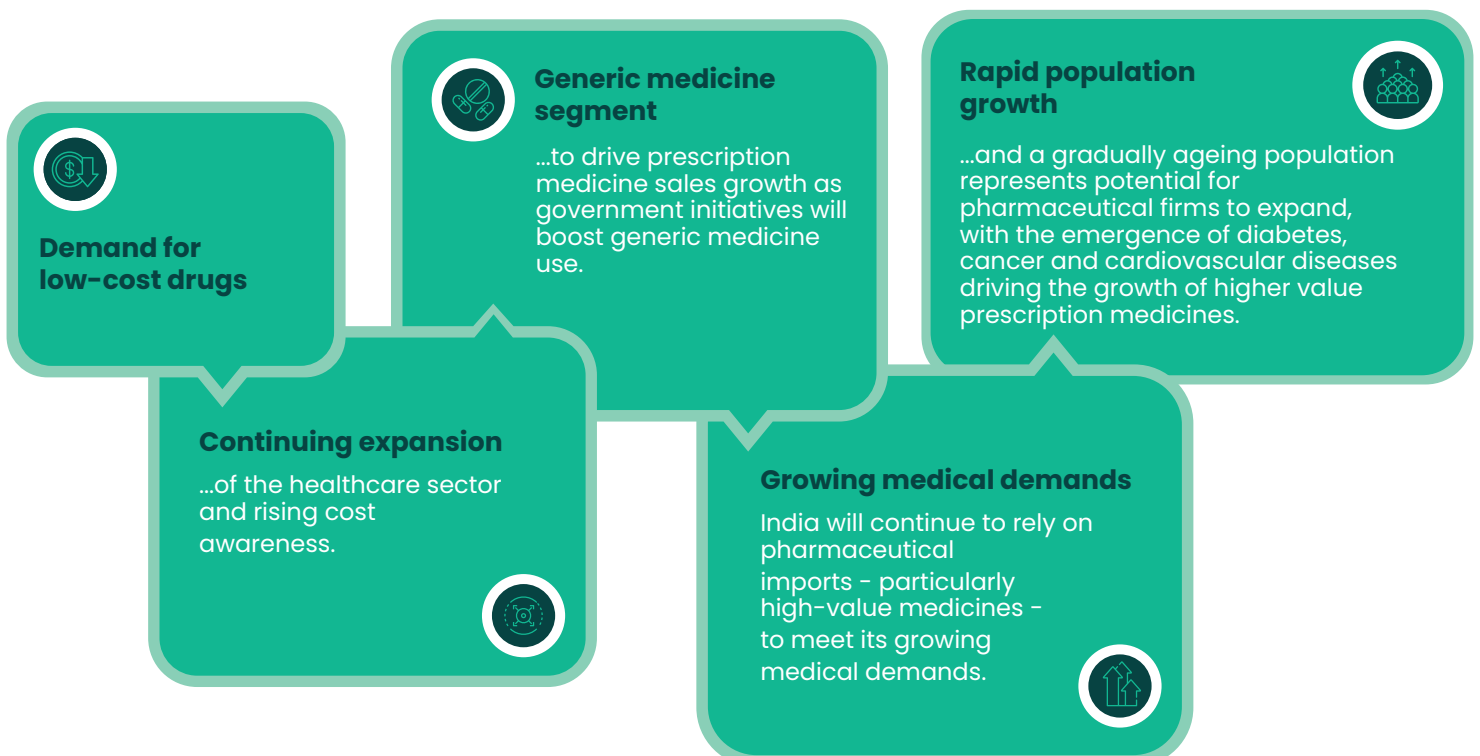

2047

Strengths

- ▶ India is a global leader in the generic drug market, driven by the combination of affordable pricing, high-quality medicines and robust manufacturing infrastructure
- ▶ India will continue to attract multinational drugmakers, supporting its long-term growth potential, driven by a large and rapidly growing population
- ▶ Significant market growth potential backed by various government initiatives aimed at boosting manufacturing capacity, attracting investment, and diversifying product offerings
- ▶ India, a key global manufacturing hub, is reducing its reliance on imports by focusing on boosting domestic API production

Opportunities

“

CPHI & PMEC India has been an exceptional platform for us over the years, growing with more Indian and global participants each time. With excellent networking, events like the CEO Roundtable and Pharma Awards, and valuable industry insights, it's always a rewarding experience. We look forward to returning with an even larger presence. Thank you!

“

One of the most remarkable events in the Indian Pharma Industry. One can gain an idea of the length and breadth of the Indian Pharma Industry, starting from Excipients, API's, Formulations, CRO's, CMO's, production, packaging, marketing: a whole 360-degree idea can be understood .And, of course, we can network with the right companies throughout the entire lifecycle. For everyone in pharma, there will be something far more exciting awaiting at CPHI.

”

Deepak Chaudhary,
Business Strategy,
Zydus Lifesciences.
