Post Show Report 2025

CPHI Americas is the essential meeting point for the pharmaceutical industry across the Americas. Anchored in Philadelphia, this event brings together every sector of the pharma supply chain – from APIs and ingredients to contract services, packaging, biopharma, and contract manufacturing.

As outsourcing transforms the industry, CPHI Americas is fast becoming the go-to stage for CDMOs to spotlight their strengths, secure high-value partnerships, and lead the next wave of pharma innovation.

It's where established players meet rising innovators, where regulatory insights are shared in real time, and where tailored matchmaking turns conversations into contracts. With science-driven content, strategic networking, and a vibrant show floor, CPHI Americas is the catalyst for pharma progress.

What our community said

"It's a great opportunity to network and get a real feel of what's happening out there."

James Donovan – Pfizer Centre One (Exhibitor)

"The entire experience, from the registration to the app, was easy to use for reaching out to people. We contacted more than 60 companies even before the event, making it easy to plan."

Deepak Mansukhani – Iqvia Health (Attendee)

Connections Program: high-value meetings that drive results

The Connections Program returned stronger than ever in 2025 as a hybrid initiative – combining the precision of pre-show matchmaking with the power of in-person meetings. Designed to align senior pharma decision-makers with the right exhibitors, the program created highly focused, efficient, and results-driven networking opportunities over three days on-site.

CPHI Celebration Gala at the College of Physicians of Philadelphia

CPHI Americas Post Show Report 2025

Our 2025 CPHI Celebration Gala was an unforgettable celebration of connection, culture, and community – drawing over **415 attendees**, the **largest gathering** since the offsite tradition began in 2023. Held at the historic **College of Physicians of Philadelphia**, the evening offered a spectacular backdrop for networking and celebration.

Guests were treated to **vibrant music and dance performances inspired by the Americas**, along with an **exquisite menu of regional cuisine** that showcased the diversity and richness of the continent. From captivating cultural moments to casual conversations under the grand chandeliers, the night embodied the spirit of CPHI: global, collaborative, and full of possibility.

Making a global impact

Sustainability highlights

We deepened our commitment to responsible practices and real-world impact across the pharmaceutical industry at CPHI Americas, kicking off with a powerful sustainability session led by Silvia Forroova and Peylina Chu—setting the tone for purpose, progress, and collaboration.

This year also saw the launch of our first onsite Blood Drive, collecting 3 vital units and laying the groundwork for an even stronger effort in 2026. We proudly partnered with the Philadelphia STEM Equity Collective, supporting their mission to increase Black, Latinx, and women's representation in STEM through financial contributions, visibility, and dedicated show-floor space.

Sustainability Corner

It served as a dedicated research hub, enabling us to gather direct feedback through:

52 onsite surveys

6 in-depth interviews with key stakeholders

Curated Sustainability Content Track

We launched a standalone content track focused entirely on sustainability, offering sessions tailored to environmental innovation, supply chain resilience, and ESG strategies. A highlight of the track was an incredible keynote from Rachel Meidl, renowned expert in sustainability and circular economy policy.

Scope 3 Workshop & luncheon

Sponsored by **Sustainable Solutions**, this hands-on session explored Scope 3 emissions, offering practical tools and strategies for reducing environmental impact across the pharma value chain.

Day 2 networking for a greener future

We hosted a **sustainability-themed networking** event on Day 2, giving professionals the chance to connect with like-minded peers, exchange ideas, and forge collaborative green initiatives.
